## CHANGES COMING IN THE NEW YEAR

### System Upgrade

Select Employees Credit Union strives to bring our members the best service possible. With that in mind we are going to perform an upgrade to our processing system in late March. While we are all busy learning what new and wonderful things our upgraded system will do, we wanted to inform you as to what is happening in case it takes us a little longer to perform your usual transaction while we master these changes. In the long run this will enable us to provide you with more efficient service.

### HOME BANKING LOGIN CHANGES COMING

Member information safety is always of concern at SECU. With the ability of some programs to decipher passwords in seconds we have decided to strengthen the requirements of our Home Banking Login credentials. This enhancement will be placed in effect on January 16, 2018 and the new requirements are as follows:

\*Login ID can be anything up to 15 characters EXCEPT the member ID/account number.

\*Passwords must be between 8 and 15 characters long and must include at least one of each:

- Upper and lower case letters
- a number
- a special character (ex: \$, #, \*, &, etc.)

For existing Home Banking users, you may change your login and password at anytime prior to the effective date, but you will be required to change your credentials the next time you login after January 16, 2018.

Should you have any questions, please do not hesitate to call us at 815-626-8181.
